

PILAROL VG 140

GENERAL FEATURES:

Pilarol VG 140 is designed for lubrication of chains of mechanical saws and machines guides. It can be applied in summer as well as in winter season. The oil is formulated with deeply refined mineral base oil and special combination of enriching additives. Pilarol VG 140 guarantees very good adherence to the device movable parts (saw cutting elements) and perfect lubricating properties.

APPLICATION:

Pilarol VG 140 is intended for mechanical saw cutting systems (chain) and guides used in forestry, horticulture, etc.

PARAMETERS	UNIT	TYPICAL VALUES
Density at 20°C	g/cm ³	0,887
Kinematic viscosity at 40°C	mm ² /s	140
Viscosity index	-	91
Flash point (open cup)	°C	268

NOTE:
Physicochemical parameters listed in the table are typical values. Real values are stated in quality control certificates attached to each product lot.
